

We've been on trips by rail
To places far and wide
We haven't lost a soul
As Katie was our guide

Been on trains all over
To Blackpool in the west
And also Hebden Bridge
Which we all thought the best

We met a group of dancers
Performing in the park
We danced along beside them
Oh what a lark

A lady who escaped
From a life of despair
Was laughing having fun
And threw bird seed everywhere

On Sofi's head it landed
By pigeons it was pecked
Oh what a laugh
Sofi's hair was wrecked

Stories like the gruffalo
Were very often read
But Banu didn't ever
Tuck us up in bed

A gallery as well
In a place which doesn't rhyme
Manchester was fantastic
We had such a great good time

We went to Christmas markets
The prices were insane
But in honour of our presence
It decided not to rain

Not always on our own
Sometimes a bigger tribe
We once went with Nightsafe
And shared with them our vibe

They were a lot of fun
We acted like baffoons
We knew them from before
From Monday afternoons

We shared a good fun time
With icebreaker games
We had quite a laugh
And we got to know their names

Meeting them was great
Such a friendly bunch
And even better still
They cooked us our lunch

We've been on some beaches
We have laughed and run and skipped
Food has been eaten
And drinks have been sipped

Fish and chips in Blackpool
A dish for all tastes
Good for our tummies
Less good for our waists

We danced along the prom
It was windy and chilly
We bought ourselves some hats
Which looked rather silly

For all these great trips
From Community Rail Lanes
From all of us in Blackburn
We give you our thanks
