

## Changes to train services

From Friday 6 until Tuesday 24 September 2024

# Major disruption between Manchester and Leeds via Todmorden

**Network Rail is investing more than £20m in rebuilding a major railway bridge that takes trains over the M62 at Castleton, near Rochdale.**

Due to major rail disruption and closures of the M62, customers are advised to plan ahead, as **journey times will be significantly increased.**

Customers should expect all services to be extremely busy, potentially leading to delays, and should consider alternative travel arrangements if possible.

To find out more about how your journey will be affected and to replan your journey, please scan the QR code or visit [northernrailway.co.uk/engineering/castletonbridge](https://northernrailway.co.uk/engineering/castletonbridge)
