Blackburn to Rochdale & Manchester

Network Rail is investing more than £20m in rebuilding a major railway bridge that takes trains over the M62 at Castleton, near Rochdale.

Mondays to Fridays, Blackburn to Manchester via Rochdale services will only run between **Blackburn and Rochdale**, with **rail replacement buses between Rochdale and Manchester Victoria**. There will be some variations at weekends as shown below.

Blackburn to Manchester via Bolton services will run as normal.

To find out more about how your journey will be affected and to replan your journey, please scan the QR code or visit northernrailway.co.uk/engineering/castletonbridge
