- The shortlist for the **2026 Community Rail Awards** was announced on 10th December and can be viewed on our awards hub <https://communityrail.org.uk/events-and-campaigns/community-rail-awards/awardsentry/>. Bookings are open to attend the awards ceremony at Derby Arena on **19th March 2026** with East Midlands Railway our headline sponsors. Plans for the evening entertainment and various fringe events are underway - also listed on the awards hub.
- The **Railways Bill** - a long-awaited major step towards establishing Great British Railways (GBR) is currently making progress through parliamentary review stages. This is a significant milestone to create a more integrated, accountable and community-responsive rail system, one that better serves people and places. Alongside the Bill, the DfT published its **Accessibility Roadmap**, setting out commitments to make rail more inclusive and accessible for all. We have published briefings on both of these important documents - <https://communityrail.org.uk/railways-bill-consultation-response-and-accessibility-roadmap-welcomed-by-community-rail-network/> and are working with GBR, DfT Operator, Network Rail and others to ensure community rail is understood, respected, supported and embedded in the new rail landscape.
- The Bill highlights the importance of Mayoral Strategic Authorities in GBR, so we ran a very informative webinar to look at how community rail can engage with regional leaders, influence transport planning and ensure community voices are heard to shape rail and integrated mobility. Resources and the recording - <https://communityrail.org.uk/past-event-materials/devolution-and-opportunities-for-community-rail-webinar/>
- Our latest resource, **‘Community Rail: placemaking and local identity’** highlights community rail’s local knowledge and relationships with community groups and partners is crucial in enabling rail to enrich lives and strengthen communities through thoughtful, collaborative placemaking. **Download the report here** or from the resources section of our website <https://communityrail.org.uk/resources/reports-and-research/> which also includes our **2024-25 Impact Report**.
- Our Small Grants Fund (England) and Community Rail Development Fund (for DfT accredited CRPs only) are open for applications. CRDF can support applications up to **£25,000** (subject to match funding). See - <https://communityrail.org.uk/member-services/grants-funding-and-bursaries/funding-available-through-crn/> There have been changes to the amounts, forms and processes this year based on feedback from members so please check the latest guidance. Local funding is also available for members in the SWR and TfGM areas.

Paul Webster leads the regions team and provides support for members in the East and West Midlands. Specialist member support is provided by Gary Shipp (Projects development and Integrated sustainable transport), Karen Bennet (Education & youth engagement) and Alex Peel (Training & Development).
- We have two projects supported with grants from Motability Foundation. **Travelling with Confidence** led by **Ellen Cameron** works with four CRPs (CR Lancashire, GO CRP, Severnside CRP & Southeast Communities RP) engaging and empowering disabled people, promoting independent mobility to use rail and connecting modes. **On Track** is working with RNIB and two of our members to explore the effectiveness of disability training received by rail staff across the UK and develop innovative new models of raising disability awareness. A second dedicated grants pot will be available in 2026 for other members to access, and resources will be developed to raise awareness of this important topic.
