

Fish, Chips & Flying Trains - By David Tebb

The world is your oyster  
When you travel on choo choos  
you can eat your fish and chips  
then use the station loos

Forget all your boring  
Highfalutin nosh  
we like our fish and chips  
even Banu - who is posh

If you think a spacecraft  
is pretty flipping quick  
Then you haven't been on Northern Rail  
We hope you won't be sick

wizzing over valleys  
a green and leafy dell  
We get around a lot  
Many thank to CRL

Flying past the hills  
flying past the Dales  
before you've got your butties out  
you're halfway to Wales

Get your Tizer out  
And before you have drunk it  
you'll find yourself in Bolton  
who would've thunk it

Visitors from outer space  
Parked their space ship for free  
Then we took them to our leader  
Who is called Banu Bee

Visitors from outer space  
When they had landed  
Heard our funny accent  
Which can't be understood

But we very soon arrived  
At a blinking good rapport  
When they ate some fish and chips  
And they were begging for more
